## [SD County Law Library Research Guides](#)

How can I compile a legislative history? How can I locate court opinions? To answer these and other frequently asked questions, the reference librarians have prepared a series of legal research and information guides. Use these guides as an aid for starting a legal research project. These guides recommend print and electronic resources that will help you find answers to your law-related questions.

Although these guides will assist in locating legal resources, they are not intended as a substitute for legal advice. The laws and regulations change frequently, so check that any resources you are using are up to date. Consult with an attorney if you need legal advice.
